## Hampton Roads Regional Safety Study Update

This report is an update to the previous Hampton Roads Regional Safety Studies released by the HRTPO in 2004 and 2014. This study includes sections related to regional safety trends, crash characteristics, crash locations, efforts to

improve roadway safety, general crash countermeasures, an in-depth analysis of high crash locations, and next steps.

## 2050 Long Range Transportation Plan Scenario Planning Framework

In March, staff provided an update on the 2050 LRTP. This agenda item reflects action items needed to advance planning efforts in developing the 2050 LRTP.

As part of the 2050 LRTP, to better prepare for future uncertainty, scenario planning is being employed to investigate plausible alternate futures and their potential impacts on the transportation system. Ms. Dale Stith, HRTPO Principal Transportation Planner, briefed the HRTPO Board on this item.
